PROFESSIONAL SUMMARY

Entry-level candidate seeking an opportunity in Information Science, Software Development, Data Science, or Machine Learning.

EDUCATION

Bachelor of Engineering (B.E.) – Information Science & Engineering

Atria Institute of Technology, Bengaluru

Undergraduate Engineering Student

Expected Graduation: 2028

TECHNICAL SKILLS

Programming: Python, Java, C

Data Science & ML: Machine Learning, Linear Regression, K-Means Clustering, SVM, Scikit-learn

Data Handling: Pandas, NumPy

Data Visualization: Matplotlib

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

AI/Development: Claude API, Streamlit

Other: Data Structures & Algorithms, SQL fundamentals

PROJECTS

- AI Resume Builder

Developed an AI-powered resume generation application using Python and Streamlit.

Designed the application with a simple and user-friendly interface.

- House Price Prediction

Built a Linear Regression machine learning model to predict house prices.

Used Python, Pandas, NumPy, Matplotlib, and Scikit-learn.

- Customer Segmentation

Implemented K-Means Clustering to group retail customers based on purchasing behavior.

Used customer purchase data to identify meaningful customer segments.

- Cats vs Dogs Image Classification

Implemented an SVM-based image classification project to distinguish between cats and dogs.

Applied image preprocessing and machine learning techniques for classification.

- FlyRank Content Opportunity Scoring

Developed a machine-learning workflow to identify content pages with opportunities for improvement.

Used Python, Pandas, Scikit-learn, DuckDB, and Hugging Face datasets.

EXPERIENCE

Machine Learning Intern – FlyRank

Performed data analysis, feature engineering, model development, validation, and recommendation generation.

Used Python, Pandas, Scikit-learn, DuckDB, and GitHub.

Machine Learning Intern – SkillCraft Technology

Completed machine-learning tasks involving regression, clustering, and classification.

Implemented models using Python and Scikit-learn.

Cyber Security Intern – CodeAlpha

Worked on cybersecurity-related projects involving network security, phishing awareness, and secure coding practices.

Gained practical exposure to basic cybersecurity concepts and secure software development.

CERTIFICATIONS

TCS iON Career Edge – Young Professional

SkillCraft Technology – Machine Learning Internship

FlyRank – Machine Learning Internship

CodeAlpha – Cyber Security Internship
